

28 October 2024

Dear Resident/Business Proprietor
Havannah Street
BATHURST NSW 2795

HAVANNAH STREET – ESSENTIAL PAVEMENT MAINTENANCE REPAIRS

As part of Councils' Road Resurfacing Program', Bitumen crews are intending to carry out bitumen pavement maintenance work on Havannah Street between Rocket and Brilliant Street, the week commencing 11 November 2024.

The work is set to take approximately 1 – 2 weeks (weather permitting) and will involve several large asphalt pavement repairs between Rocket and Brilliant Streets.

Unfortunately, there will be a requirement to temporarily close a section of Havannah Street near the roundabout periodically for up to 4 days, with access strictly to residents only during working hours.

As to not obstruct these works, Residents and Business Owners are requested not to park their vehicles along the kerbside and to seek alternate vehicle parking during the works. This will allow repair crews to complete this work uninterrupted with full access.

Minor traffic delays can be anticipated between the hours 6.30am to 3.00pm Monday to Friday. Motorists are requested to abide by the changed traffic conditions and the directive of traffic controllers.

Council would like to thank you for your understanding and in advance of the necessary road maintenance work, should you have any enquiries regarding these works, please contact Councils' Department of Engineering Services (02) 6333 6100.

Regards

Chris Schumacher
