

What is happening

- Introduction of MYLAPS timing devices at Supercar Rounds – this applies to Taupo, Perth and The Bend
- The timing device used at the remaining two rounds (Winton & Macau) will be confirmed

Further Info

- TCR Australia will confirm the exact mounting position for the device which will be recorded in the category Sporting Regulations
- Natsoft will still be used in 2025 for live timing and results

Pricing

- Purchase a TR2 transponder with a subscription and optional damage warranty – 1, 3, 5 or 10 years (10 years is \$1080). Once subscription expires, the transponder can sit dormant until renewal.
- Purchase the unit outright through MYLAPS (rechargeable or direct power) - \$890
- At event rental (Competitors are required to purchase their own mount) – \$50 ex GST

How to Order

Directly through Speedhive via this [LINK](#)

Or via contacting Alex Deane or Ben Wales from MYLAPS – contact details below for further information and to set up a subscription account.
